A more modern **aesthetic quality**

A clear functional design providing a high-quality image with exceptional ease of use.

Comfort

> Soft, rounded shape that's comfortable to hold.
> Large screen for improved visibility.
> Ergonomically-designed buttons.
> Discreet wall clip.

Harmony

A choice of two finishes to match all décors.

Pure
A subtle tone that blends seamlessly into all interiors.

Silver
For modern interiors bursting with technology.

The very best benefits

EXCLUSIVE TO SOMFY

The **"my"** button

Use this button to set your favourite position for a product group and recall it again instantly.

E.g.: Set the office roller shutter to the ideal position to avoid sunlight glare on the computer screen.

Security

> Close all roller shutters on the ground floor with a single click, with no need to check each shutter individually – total peace of mind in an instant!

> Enjoy a peaceful night's sleep, once you close all the roller shutters in the house in the evening with a single click... with no risk of forgetting one.

Telis 16 RTS

The comfort of central control is now available.

The new Telis 16 RTS remote control has 16 channels and can control all house applications, including roller shutters, patio awnings, indoor blinds, vertical blinds, skylight blinds, etc.

New:
Intuitive programming
and an easy-to-use interface:
> The remote control is easier to use.
> They can programme the control themselves, as and when required, to suit their needs.

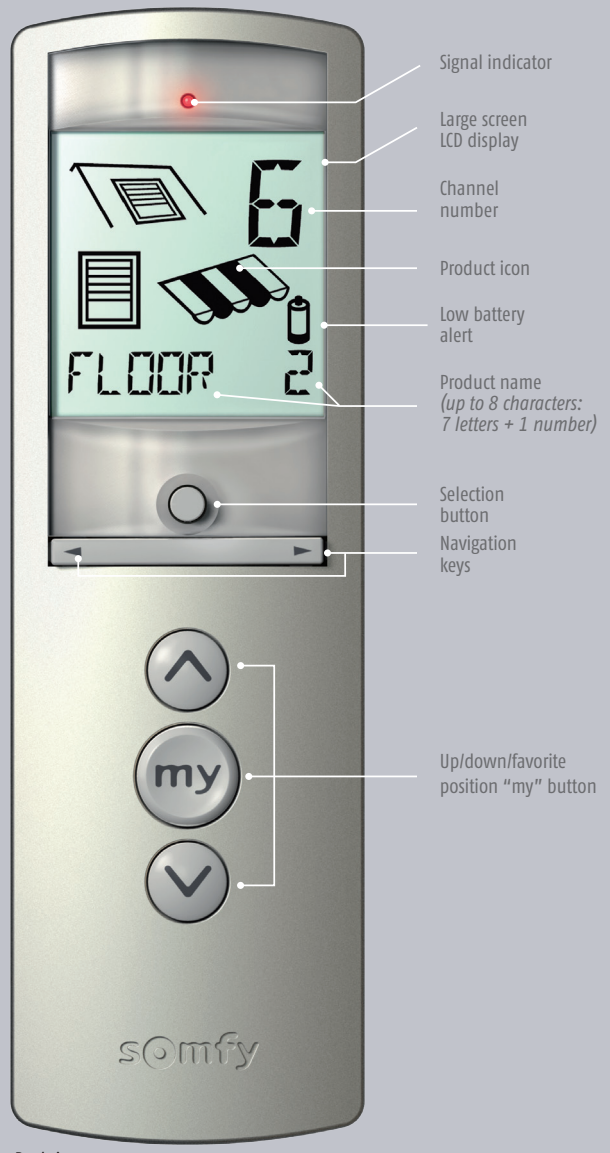
You therefore save time on your projects!

RTS
Radio Technology Somfy®

Clearer vision

A large screen, detailing all information, which can be read comfortably.
You can assign each channel a name, icon and/or number.

What does it look like?



Signal indicator
Large screen LCD display
Channel number
Product icon
Low battery alert
Product name *(up to 8 characters: 7 letters + 1 number)*
Selection button
Navigation keys
Up/down/favorite position "my" button

Real size

How does it work?

E.g.: The screen of the office

E.g.: The roller shutters on the first floor

E.g.: The awning on the terrace

E.g.: All blinds and roller shutters in the house

Easier programming

- **Create up to 16 groups:**
  > Either several products in the same room or several applications on the same façade, operated from a single unit.
  > Or a single product, to be operated in stand-alone mode.

How does it work?

Creating a group couldn't be easier.
The procedure is the same as that used for other multi-channel RTS control units.

Greater customisation

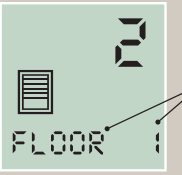
Once you have created a group of products, you can view and name the group with a few simple clicks, making the group easier to identify on the remote control screen.

How does it work?

- If you want to, you can assign one or more icons based on the products in each group.

Roller shutters | *Roller shutters or skylight blinds* | *Patio awnings*

- If you want to, you can name each group. The name can be up to 7 letters and 1 number.



8 characters: 7 letters + 1 number from 0 to 9 to help you identify each group easily
